

It's more than just Oil.
It's LIQUID ENGINEERING.

PRODUCT CATALOGUE

EDGE 5W-40

Strength for Maximum Performance

Castrol EDGE is a full synthetic premium engine oil recommended by many of the world's leading car manufacturers. Castrol EDGE is our strongest and most advanced range of engine oils. Engineered with fluid strength technology, it is up to 40% stronger at reducing metal-to-metal contact across a range of driving speeds, lowering friction to enable maximum engine performance. It is suitable for use in automotive petrol and diesel engines where ACEA C3, API SN/CF or earlier specification.

PERFORMANCE BENEFITS:

- Maximises short and long term engine performance.
- Reduces engine deposits to maximise engine response
- Independently proven to improve engine efficiency.
- Delivers and sustains maximum horsepower for longer, even when under pressure.

Pack Sizes: 1L, 4L, 5L, 208L.

EDGE PROFESSIONAL 0W-20

Strength for Maximum Performance

Castrol EDGE Professional, a full synthetic engine oil boosted with TITANIUM FST, provides outstanding oil strength for today's engines. It is CO2neutral according to the highest global standards. It is suitable for use in automotive gasoline and diesel engines where the manufacturer recommends an ACEA A1/B1, API SL, ILSAC GF3 or earlier specification 5W-20 lubricant.

PERFORMANCE BENEFITS:

- Maximises short and long term engine performance
- Reduces engine deposits to help maximise engine response
- Delivers complete protection across a variety of engine speeds, conditions and temperatures.
- Sustains maximum performance even when under pressure.
- Independently proven to improve engine efficiency.
- Delivers unsurpassed levels of protection across a variety of driving conditions and temperatures

Pack Sizes: 1L

MAGNATEC 5W-30

Protection From the Start Castrol Magnatec 5W-30 is a full synthetic engine oil with intelligent molecules that cling to the engine like a magnet providing an extra layer of protection, dramatically reducing engine wear even from the start. It is suitable for use in automotive petrol and diesel engines where the manufacturer recommends an ACEA C3, API SN/CF or earlier specification 5W-30 lubricant.

PERFORMANCE BENEFITS:

- Forms a powerful force field of protection
- Dramatically reduce both warm-up and stop-start wear
- Provide continuous protection for all driving conditions, styles and temperatures.
- Delivers unique patented protection designed specifically for modern driving ACEA A1/B1, A5/B5, API SN, ILSAC GF-5

Pack Size: 1L, 4L, 210L

GTX ESSENTIAL 20W-50

Sludge Protection for Greater Engine Reliability

Castrol GTX is one of the world's most trusted engine oils. It protects against problems, like sludge caused by severe driving conditions such as:

- Heavy traffic
- Poor fuel quality
- Harsh weather conditions
- Exceeding oil change intervals.

It is suitable for use in automotive gasoline and diesel engines where an API SL/CF or earlier specification 20W-50 lubricant is recommended.

PERFORMANCE BENEFITS:

- Advanced protection against viscosity and thermal breakdown.
- Premium quality base oils and anti-wear additives that help extend the life of your engine.
- Helps minimize oil consumption.

Pack Size: 1L, 4L, 205L

GTX ESSENTIAL 25W-50

Sludge Protection for Greater Reliability

It protects against problems like sludge caused by severe driving conditions and it's an excellent solution to the problem of fuel dilution usually associated with old engines. It is suitable for use in older generation normally aspirated and turbocharged petrol and diesel engines where the manufacturer recommends an API SG/CF 25W-50 lubricant.

PERFORMANCE BENEFITS:

- Reduced oil consumption.
- High level of fuel dilution capability.
- Excellent viscosity stability
- Good oil pressure control
- Provides protection against engine sludge

Pack size: 1L, 4L, 205L

GTX ESSENTIAL 15W-40

Superior Diesel Engine Protection

It provides extra protection against diesel engine problems like soot and harsh deposits that your engines face every day. It is suitable for use in automotive diesel engines including intercooled and turbo charged manufacturer recommends an API CH4/SJ or earlier specification 15W-40 lubricant.

PERFORMANCE BENEFITS:

- Superior cleaning power to maintain engine performance.
- Reduces the build-up of harsh deposits.
- Helps prevent oil from thickening to keep it flowing freely.
- Outstanding diesel engine wear protection.

Pack Size: 1L, 5L 205L

SUPER OUTBOARD PLUS

Superior performance Engine Oil for Outboards

Castrol Super Outboard Plus is a mineral based, superior performance engine oil designed for watercooled 2 stroke outboard engines. It is suitable for use in premix and oil injection with both leaded and unleaded petrol for fuel/oil mixture ratios, as recommended by the engine manufacturer up to 100:1.

PERFORMANCE BENEFITS:

- Miscible with fuel
- Contains selected ash-less additives to provide exceptional overall engine cleanliness and reduced sparkplug fouling.

Pack Size: 1L

POWER 1 RACING 4T 10W-50

Race-Derived Technology

Castrol Power 1 Racing 4T 10W-50 is a fully synthetic 4-stroke engine oil for modern, high performance sports bikes that increases engine acceleration and power right up to maximum rpm. It is suitable for all makes of 4-strokes bikes, both carburettor and fuel injected where API SL (and below) and JASO MA or MA2 specifications are recommended.

PERFORMANCE BENEFITS:

- Features Trizone Technology which ensures uncompromised performance protection.
- Flows fast and stays strong, reducing internal engine friction even under the most arduous conditions.
- Tested and proven to deliver exceptional acceleration at the touch of the throttle.
- Complies with requirements of catalyst equipped engines

Pack Size: 1L

ACTEVO 4T 10W-40

CONTINUOUS PROTECTION

It is a latest generation, part-synthetic engine oil developed specifically for 4-stroke motorcycle engines. It is uniquely formulated with Active Protection Molecules (APM) and Trizone Technology which provide a continuous layer of protection, ensuring up to 70% wear reduction when compared to a JASO MA-2 motorcycle oil. Actevo 4T 10W-40 has been tested over the equivalent of 600,000km to ensure outstanding protection for motorcycles and scooters.

PERFORMANCE BENEFITS:

- Protects from the start to the end of every journey and at all operating temperatures.
- Produces no rust in water corrosion tests.
- Specially designed with Trizone Technology.
- API SJ

Pack Size: 1L

HD MOTOR OIL 40

Premium Monograde Oil

Castrol HD 40 is a premium monograde oil engineered for greater protection against thermal breakdown. It exceeds performance in gasoline/ naphtha and gas NGV/CNG passenger cars and gasoline/ naphtha light trucks where an SJ, SL or SM performance is recommended.

PERFORMANCE BENEFITS:

- Provides maximum wear protection in warm climates.
- Use HD 40 when ambient temperature is above 60°F/ 15°C.

Pack Size: 1L, 4L, 5L, 205L AUTO

AUTO TRANSMISSION FLUID DEXRON III

For use in GM automatic transmissions pre 2005 and Ford automatic transmissions built between 1983 and 1996 where DEXRON® (II or III) or MERCON® are required. Approved for use in many European heavy duty automatic transmissions.

Pack Size: 1L

AUTO TRANSMISSION FLUID DEXRON II

For use in automatic transmissions and power steering units of many types of vehicle where Dexron® IID or Mercon® performance is required. Approved for use in many European heavy duty automatic transmissions and Mercedes Benz manual transmissions.

Pack Size: 1L

CASTROL DOT 4 BRAKE FLUID

It is liquid engineered to prevent vapour lock and protect your brake system. Brakes are essential for any car and this makes brake fluid one of your car's most essential components. It has to resist the moisture that can cause vapour lock brake failure, protect against corrosion, and withstand high brake temperatures.

Choosing the right brake fluid for your car's requirements and changing it on time is critical to safety. Castrol's brake fluid range includes products for high performance cars, driving under demanding conditions, to products with increased safety margin. Specifically designed to supersede high temperature requirements of DOT 4 specifications. NB: It should not be used in braking systems where a mineral oil based fluid is recommended.

Pack Size: 0.2L

RADICOOOL SF PREMIX

The coolant system on a car is often the most neglected part, but is actually one of the most important.

A significant number of engine failures are related to coolant system malfunctions. Taking care of the cooling system reduces downtime and the inevitable cost of repairs. Use of the correct dilution for the climate your car operates in is key to ensure total protection.

A ready to use silicate, nitrite, amine and phosphate-free premixed antifreeze for the modern performance engines of cars and trucks.

Pack Size: 1L, 5L
